

Computer Community Hospital presents a breath of freshAIR

Last Updated Monday, 12 November 2012

Computer Community Hospital (CCH) is a woman owned customer focused, comprehensive IT company based in Florida. We specialize in commercial and residential service, support, maintenance and sales. We install computer systems, Network Infrastructure, VOIP, WIFI, switches and routers. With our dedicated team we can provide exceptional service by highly qualified technicians…..not geeks!

Assessment

Site survey of current system and components (physical equipment-computers, software, routers, cabling)

Computer network infrastructure (foreseeable issues for initial install)

Make recommendations as necessary

Installation

Maximize system’s performance

Networks (inclusive of servers, client workstations, routers, switches, & firewalls)

Install/setup Antivirus Protection as necessary for corporate clients

Install/setup-Sophisticated Remote Data Backup System as needed

Repairs

Hardware/software enhancements (hard drives, memory, software programs, etc.)

Long term customer focused maintenance (Tune-up schedule).

Let CCH add a breath of freshAIR to your system.

freshAIR will provide the most cost effective and comprehensive support tools to bring you up to speed and keep your computer system running smoothly.
